Personal Profile

Past: A motivated and proactive individual with a strong academic background in GCSEs and A-Levels, including subjects such as Spanish, Media, Finance, Travel and Tourism, and Sociology. Recognised for excellent communication, organisational skills, and the ability to work both independently and within a team.

Present: After finishing sixth form, started look to venture into more practical roles to gain real-world experience and to fund my travels for the gap year. Towards the end of year of 2023 is when software development became the next step in my life and the beginning of my career.

Future: Currently eager to transition into a degree apprenticeship in software engineering or get straight into the open market, bringing strong problem-solving skills, quick learning ability, and a commitment to both academic and professional development.
